

## PROFILE

I have over 10 years of experience as a UI designer & developer, specializing in creating highly-polished interactive graphic interfaces for web apps and software on mobile and desktop screens.

## SKILLS

**Design:** Sketching mockups, Prototyping with HTML/CSS/JS, High fidelity comps

**Design Tools:** Adobe CS, Balsamiq, Origami

**Development Tools:** GIT/GitHub, SVN, NPM, Grunt

**Languages:** HTML5, CSS3 (SASS/LESS), JavaScript (ES5/6), JSON, PHP

**Methodologies:** Scrum, Agile, OOD (OOCSS/SMACSS/BEM)

## EXPERIENCE

**Mixpo, Inc. | Seattle, WA**

**Senior Web Developer: 2/11 - 4/13 | Front-End Developer: 4/13 - Present**

Mixpo provides a web-based application that enables publishers to create and manage interactive advertising campaigns.

**Main Roles:**

- Build and maintain enterprise-level software built with AngularJS
- Develop and maintain pattern library for other employees to reference
- Help establish coding style guidelines based on industry best practices
- Design and develop customizable widgets for added value of product
- Design and develop custom demos and prototypes for clients
- Development and maintenance of public and private CMS-driven web sites
- Work in close coordination with design and marketing to ensure feasibility and estimates for deliverables

**Sesame Communications, Inc. | Seattle, WA**

**Senior Web Designer: 8/06 - 2/11**

Sesame Communications provides practice management solutions and marketing websites to the dental & orthodontic industries.

**Main Roles:**

- Design and develop full websites for clients. Process involves creating design comps, revising based on client feedback, then building and delivering completed product
- Perform in close coordination with project managers while adhering to strict deadline metrics
- Support in-house marketing initiatives, maintenance of proprietary tools, and design/development of new material for proprietary content
